Setting up mobile access

1 Download the Schwab mobile app

Visit the app store for your mobile device and search for "Schwab mobile."

2 Log in to access your account

Use the same Schwab Alliance credentials you use online.

3 Check your mobile app settings

Navigate to "Settings" and turn on "Multitasking" to ensure that you can approve any wires requiring additional validation steps.

4 Turn on push notifications (for iOS/Apple devices only)

Navigate to your device "Settings" and select "Notification Center." Ensure that Schwab App is in the list of included apps. You can choose either "Banner" or "Alert" notifications. This will ensure that you receive alerts to approve wires.
